Lucas Virginio da Silva Santos

Full Stack Developer | Web & Mobile

Lvirginio.dev@gmail.com · github.com/llucalins · linkedin.com/in/lucas-virginio-55311627b · lucasvirginio.is-a.dev

PROFESSIONAL SUMMARY

Full Stack Developer experienced in web and mobile applications, interfaces, features, and API integration. Hands-on work with React Native for Android and iOS, React, Next.js, TypeScript, and Back-end development, including systems architecture and integration of artificial intelligence solutions.

TECHNICAL SKILLS

Mobile and Front-end: React Native, React, Next.js, TypeScript, JavaScript, HTML, CSS

Back-end and APIs: Java, Spring Boot, Node.js, Python, REST APIs, OpenAI APIs

Data and tools: PostgreSQL, SQL, Docker, Git, GitHub

Practices: Software architecture, debugging, technical documentation, systems integration

PROFESSIONAL EXPERIENCE

Anderson Rios Consultoria · Remote

Full Stack Developer · May 2025 — Dec 2025

- Mobile development with React Native for Android and iOS: screens, components, and features.
- Room measurement and AI-powered virtual furniture projection features; participation in OpenAI API integration.
- Web development with React, Next.js, TypeScript, JavaScript, Node.js, and Python; implementation and consumption of REST APIs.
- Participation in architecture definition; Git, Docker, troubleshooting, bug fixes, and documentation.

City of Esperança

Computer Skills Instructor · Mar 2023 — Aug 2025

Technology support and creation of educational digital activities for computer skills instruction.

City of Esperança

Administrative Professional · Jan 2021 — Mar 2023

Work involving documentation, spreadsheets, records, and administrative process support.

Full Stack Developer — Freelancer

Development of web applications and Full Stack solutions.

- Implementation of web interfaces and integration between Front-end and APIs.
- Application structuring and integration with data persistence.

SELECTED PROJECTS

Vmais Comunicação

React interfaces integrated with a Java/Spring Boot API, administrative features, relational persistence, and a Docker environment.

React · Vite · JavaScript · Java 21 · Spring Boot · PostgreSQL · Docker

Scheduling System

Web foundation, architecture documentation, and modeling of scheduling modules and business rules. Availability and bookings remain planned.

Next.js 16 · React 19 · TypeScript · PostgreSQL (pg)
