Lucas Virginio da Silva Santos

Full Stack Developer | TypeScript & AI Integration

Lvirginio.dev@gmail.com | github.com/llucalins | LinkedIn | lucasvirginio.is-a.dev

---

SKILLS

- **Front-end and mobile:** TypeScript, React, Next.js, JavaScript, HTML, CSS, React Native
- **Back-end and APIs:** Java, Spring Boot, Node.js, Python, REST APIs, OpenAI APIs
- **Data and tools:** PostgreSQL, SQL, Docker, Git, GitHub
- **Practices:** Software architecture, debugging, technical documentation, systems integration
- **Languages:** Portuguese — native · English — intermediate

---

PROFESSIONAL EXPERIENCE

Anderson Rios Consultoria · Remote

Full Stack Developer

May 2025 — Dec 2025

- Web development with React, Next.js, TypeScript, JavaScript, Node.js, and Python; implementation and consumption of REST APIs.
- Room measurement and AI-powered virtual furniture projection features; participation in OpenAI API integration.
- Mobile development with React Native for Android and iOS: screens, components, and features.
- Participation in architecture definition; Git, Docker, troubleshooting, bug fixes, and documentation.

City of Esperança

Computer Skills Instructor

Mar 2023 — Aug 2025

- Planned and delivered computer skills training, fostering essential digital competencies and participant autonomy.
- Trained more than 100 students in computing tools, digital productivity, and the use of technology in educational and creative contexts.
- Monitored participants' technical development, helping more than 100 students complete their training and earn certification during the period of employment.

City of Esperança

Administrative Professional

Jan 2021 — Mar 2023

- Work involving documentation, spreadsheets, records, and administrative process support.

Full Stack Developer — Freelancer

Development of web applications and Full Stack solutions.

- Implementation of web interfaces and integration between Front-end and APIs.
- Application structuring and integration with data persistence.

SELECTED PROJECTS

Vmais Comunicação

React interfaces integrated with a Java/Spring Boot API, administrative features, relational persistence, and a Docker environment.

React · Vite · JavaScript · Java 21 · Spring Boot · PostgreSQL · Docker

Lava Auto — Scheduling System

Catalog, availability, booking confirmation and tracking flows; administrative panel and PostgreSQL persistence. In development, with a local demonstration and synthetic data.

Next.js 16 · React 19 · TypeScript · PostgreSQL (pg)

Mr Roobot AI Office

Experimental project in development: configuration of specialized architecture, backend, frontend, and QA agents using Hermes Agent, and exploration of integration with DeskRPG. Hermes Agent and DeskRPG are third-party tools.

Hermes Agent · DeskRPG

EDUCATION

PRONATEC / CAVN-CCHSA-UFPB
Systems Programmer
2018

Digital Innovation One
Web Development / Front-end
2024

COURSES AND CERTIFICATES

COURSES

Code Versioning with Git and GitHub
DIO - 2023 - Certificate

Software Structure and Development Environment
DIO - 2024 - Certificate

Understanding Client x Server Communication
DIO - 2024 - Certificate
